ARIZONA WATER COMPANY
PHOENIX - ENGINEERING

Dear Mr. Whitehead,

Pinal Creek Group is proceeding with the installation of the PCG Well Number 4 as part of our agreement with Arizona Water Company to provide replacement water. As with PCG Well Number 3, Mr. Ron Peterson of M3 Engineering will be doing the Engineering and Construction Management for the project. As in the past, the completed design drawings will be sent to you and Mr. Mark Kieren for review and approval prior to sending them to the State of Arizona. Mr. Peterson will be contacting either yourself or Mr. Kieren with questions as he proceeds with the design.

During this project if any issues or problems arise please feel free to contact me.

Sincerely,

Bob Tunis
PCG Project Manager

Re: Interim Use of Hoopes Well #2 as a Source of Replacement Water

Dear Mr. Livingston:

This is in reply to your letter of October 30, 2000 addressed to me as Chairman of the Pinal Creek Group (PCG) Steering Committee. The PCG appreciates and understands your interest in obtaining title to the Hoopes #2 Well. The PCG will meet its obligations under the Settlement and Release Agreement (Agreement) to supply water according to the Agreement schedule, but at this time the PCG is not prepared to convey title to the Hoopes #2 Well. The PCG will continue to provide Arizona Water Company (AWC) with water from the well and to pay for operation and maintenance of the well. Since the Agreement does not mandate an absolute deadline for conveying title to a Replacement Water well, the PCG members believe that they are in compliance with the Agreement and that a letter of understanding is not needed. We will continue to consider your interest in receiving title, and will keep you advised.

Sincerely,

Richard N. Mohr
Chairman
Pinal Creek Steering Committee
